

Daniel Fortuna

Front-end web developer

I'm Fortuna Daniel is a junior Front-end developer and a 3rd-year student at CEITI in Moldova. With hands-on experience in web design and a strong foundation in frontend technologies, I am focused on creating clean, responsive websites that prioritize user experience.

Skills

- Front-end web development
I am proficient in HTML, CSS, and JavaScript, specializing in crafting visually engaging interfaces that are accessible across all screen sizes and devices.
- UI/UX design
As a Front-end Developer, I have experience using Figma to design intuitive, visually appealing interfaces, ensuring a seamless experience across devices.

Experience

2024

Mosteria E-menu

An e-menu for a newly-opened italian restaurant in Anenii Noi, focusing on simplicity, accessibility and optimization.
